ABOUT US

Mediviz Pharma Services Pvt Ltd, founded by a pharmaceutical expert with 25+ years of experience, is a specialized organization focused solely on Microbiology. With two advanced units in Visakhapatnam, we offer complete solutions for microbiology labs and pharma companies.

Manufacturing Ready To Use Media

Manufacturing Dehydrated Culture Media

Supplying sterile microbiology lab consumables

Operating Microbiology Testing Laboratory

Microbiology Testing Laboratory

Microbiological Testing

- Water, Environment, Equipment, Surfaces, Personnel, and API
- BET (Bacterial Endotoxins Test) for Water & APIs
- Disinfectant efficacy validation
- Microbiology & BET method validations

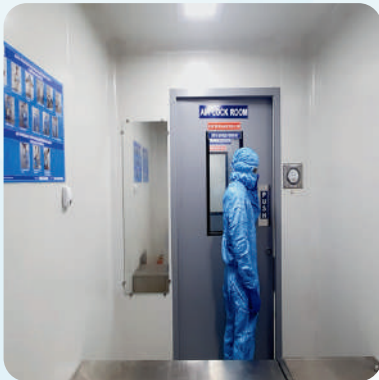

Compressed Gases (Air/Nitrogen)

- Microbiology Testing
- Physical/Chemical tests: Dew point, Oil mist, CO/CO₂, Hydrocarbons, Oxygen content, Nitrogen content, Particulate count, purity and particulate matter

State-of-the-art Media Manufacturing Facility

Mission

"To stay one step ahead in setting benchmarks in microbiology — aligning with regulatory needs while exceeding customer expectations."

Vision

"To become the ultimate destination for microbiology solutions, across India and beyond."

OUR OFFERINGS

Ready-to-Use (RTU) Media Plates & Broths

Sterile, convenient, and compliant media for routine and specialized microbiological applications.

BENEFITS

Instantly available from approved stock, eliminating media prep, documentation, and incubation delays.

Reduce human error and autoclave/water bath usage.

Ensures consistent product quality and long shelf life, with triple-wrapping for cleanroom compatibility.

Barcode-ready and customizable

Manufactured in ISO-8 to ISO-5 classified clean zones with fully automated filling and packaging

Dehydrated Culture Media (DCM)

Premium-quality DCM with user-focused packaging innovations.

Short lead time for delivery

Available in convenient 250g pack sizes

Competitive pricing with no quality trade-off

Dual inner pack (2 × 250g per 500 gm) preserves integrity by minimizing exposure, reducing contamination, aiding inventory, and allowing separate opening dates.

Microbiology Laboratory Consumables

Mediviz is able to supply following high-quality sterile and non-sterile disposable consumables for routine microbiological operations:

WHY MEDIVIZ?

1st

Pioneer

First-of-its-kind microbiology manufacturing in Andhra Pradesh

Strategic Location

Located in India's premier MedTech ecosystem – AMTZ, Visakhapatnam (Vizaq)

Expertise

Expert team with deep understanding of pharmaceutical microbiology

Quality, Innovation & Support

Driven by quality, compliance, and innovation, with personalized support, short lead times, and flexible supply models.

Accreditation and Certification

ISO/IEC 17025:2017 (NABL) accredited lab.
ISO 9001:2015 & ISO 13485: 2016 certified facilities.
